Plaintiffs Gregory Asken, Melissa Barron, Kimberly Bennett, David Bernstein, Ron Blau, Tenisha Burgos, Kent Busek, Jennifer Chase, Rita Cornish, Melissa Croom, Lori Curtis, Jessica Decastro, Alena Farrell, Jane Fitzgerald, Carroll Gibbs, Dori Gilels, Jason Grala, Paul Gustafson, Tom Halverson, Curtis Harr, Andrew Hedlund, Gary Arthur Herr, Leonard Julian, Carol Ann Kashishian, Elizabeth Kaufman, Robert Klingler, James Marean, Nilsa Mercado, Rebecca Lynn Morrow, Edward Muscara, Stacey Nickell, Sophie O’Keefe-Zelman, Roger Olson, William Picotte, Whitney Porter, Cindy Prince, Janne Rice, Robert Rice, Jr., Frances Gammell-Roach, Darrel Senior, Meetesh Shah, Darcy Sherman, Erica Shoaf, Arthur Stukey, Kathleen Tawney, Keith Uehara, Michael Wick, Thomas Wilson and Phillip Young (“Plaintiffs”), on behalf of themselves and all others similarly situated (the “Classes” as defined below), upon personal knowledge as to the facts pertaining to them and upon information and belief as to all other matters, and based on the investigation of counsel, bring this class action for damages, injunctive relief and other relief pursuant to federal antitrust laws and state antitrust, unfair competition, consumer protection and unjust enrichment laws. Plaintiffs demand a trial by jury, and allege as follows:

### **NATURE OF ACTION**

1. This lawsuit is brought as a proposed class action against Defendants Toyo Tire & Rubber Co., Ltd. and Toyo Automotive Parts (USA), Inc. (together, “Toyo” or “Defendants”) and unnamed co-conspirators, manufacturers and/or suppliers of Automotive Constant-Velocity-Joint Boot Products (defined below) globally and in the United States, for engaging in a long-running conspiracy to unlawfully fix, raise, maintain and/or stabilize prices, rig bids for and allocate the market and customers in the United States for Automotive Constant-Velocity-Joint Boot Products (defined below). According to the United States Department of Justice (“DOJ”),

Defendants' conspiracy successfully targeted the long-struggling United States automotive industry, raising prices for car manufacturers and consumers alike.

2. "Automotive Constant-Velocity-Joint Boot Products" are composed of rubber or plastic, and are used to cover the constant-velocity-joints of an automobile to protect the joints from contaminants.

3. Plaintiffs seek to represent all persons and entities who, during the period from and including January 1, 2006 through such time as the anticompetitive effects of the Defendants' conduct ceased (the "Class Period") purchased or leased a new vehicle in the United States not for resale which included one or more Automotive Constant-Velocity-Joint Boot Products as a component part which were manufactured or sold by the Defendants, any current or former subsidiary of the Defendants, or any-co-conspirator of the Defendants.

4. The Defendants manufacture, market, and/or sell Automotive Constant-Velocity-Joint Boot Products throughout and into the United States. The Defendants, and their co-conspirators (as yet unknown), agreed, combined, and conspired to fix, raise, maintain and/or stabilize prices, rig bids and allocate the market and customers in the United States for Automotive Constant-Velocity-Joint Boot Products.

5. The U.S. Department of Justice's ("DOJ") Antitrust Division is currently conducting a broad criminal investigation into illegal price-fixing and bid-rigging in the automotive parts industry. As part of its criminal investigation, the DOJ is seeking information about unlawful anticompetitive conduct in the market for a number of different but related automotive parts, and the Federal Bureau of Investigation ("FBI") has participated in raids, pursuant to search warrants, carried out in the offices of a number of major competitors in the automotive parts industry. The automotive parts investigation is the largest criminal

investigation the Antitrust Division has ever pursued, both in terms of its scope and its impact on American consumers and businesses. The ongoing cartel investigation of price-fixing and bid-rigging in the automotive parts industry has yielded more than \$2.4 billion in criminal fines to date.

6. Defendant Toyo Tire & Rubber Co., Ltd. agreed to plead guilty to a two-count criminal Information and pay a \$120 million fine for its unlawful conduct in: (i) conspiring with others to suppress and eliminate competition by agreeing to allocate sales of, to rig bids for, and to fix, raise, and maintain the prices of, automotive anti-vibration rubber products sold to automobile and component manufacturers in the United States and elsewhere from at least as early as March 1996 until at least May 2012; and (ii) conspiring with others to suppress and eliminate competition in the automotive parts industry by agreeing to allocate sales of, and to fix, raise, and maintain the prices of Constant-Velocity-Joint Boot Products sold to GKN plc and its subsidiaries (collectively, “GKN”) in the United States and elsewhere from at least as early as January 2006 and continuing until as late as September 2010. The combinations and conspiracies engaged in by Defendant Toyo Tire & Rubber Co., Ltd. and its co-conspirators were an unreasonable restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15 U.S.C. § 1.

7. In addition to the fact that Defendant Toyo Tire & Rubber Co., Ltd. agreed to plead guilty and agreed on its own behalf and on behalf of its subsidiaries to cooperate in the DOJ’s investigation, one of its high-ranking executives has pleaded guilty to criminal price-fixing in the automotive parts industry and several others have been criminally indicted. On November 21, 2013, the DOJ announced that Tetsuya Kunida, a former executive of Defendant Toyo Tire & Rubber Co., Ltd., agreed to serve 12 months and one day in a U.S. prison, and to

pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information for his role in a conspiracy to rig bids for, and to fix, raise, and maintain the prices of anti-vibration rubber products sold to automobile and component manufacturers in the United States and elsewhere. On November 21, 2013, the DOJ announced that it filed an Indictment against two former executives of Defendant Toyo Tire & Rubber Co., Ltd., Masao Hayashi and Kenya Nonoyama, for participating in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate the supply of, to rig bids for, and to fix, raise, and maintain the prices of, automotive anti-vibration rubber products sold to Toyota Motor Corporation and Toyota Motor Engineering & Manufacturing North America, Inc., in the United States and elsewhere, from as early as March 1996 continuing until at least December 2008.

8. The Defendants and their co-conspirators participated in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate sales of, rig bids for, and to fix, stabilize and maintain the prices of Automotive Constant-Velocity-Joint Boot Products sold to vehicle manufacturers and others in the United States. The combination and conspiracy engaged in by the Defendants and their co-conspirators was in unreasonable restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15 U.S.C. § 1, and state antitrust, unfair competition, consumer protection and unjust enrichment laws.

9. As a direct result of the anticompetitive and unlawful conduct alleged herein, Plaintiffs and the Classes paid artificially inflated prices for Automotive Constant-Velocity-Joint Boot Products during the Class Period and have thereby suffered antitrust injury to their business or property.

### **JURISDICTION AND VENUE**

10. Plaintiffs bring this action under Section 16 of the Clayton Act (15 U.S.C. § 26) to secure equitable and injunctive relief against Defendants for violating Section 1 of the Sherman Act (15 U.S.C. § 1). Plaintiffs also assert claims for actual and exemplary damages pursuant to state antitrust, unfair competition, consumer protection and unjust enrichment laws, and seek to obtain restitution, recover damages and secure other relief against the Defendants for violations of those state laws. Plaintiffs and the Classes also seek attorneys' fees, costs, and other expenses under federal and state law.

11. This Court has jurisdiction over the subject matter of this action pursuant to Section 16 of the Clayton Act (15 U.S.C. § 26), Section 1 of the Sherman Act (15 U.S.C. § 1), and Title 28, United States Code, Sections 1331 and 1337. This Court has subject matter jurisdiction of the state law claims pursuant to 28 U.S.C. §§ 1332(d) and 1367, in that this is a class action in which the matter or controversy exceeds the sum of \$5,000,000, exclusive of interests and costs, and in which some members of the proposed Classes are citizens of a state different from some of the Defendants.

12. Venue is proper in this District pursuant to Section 12 of the Clayton Act (15 U.S.C. § 22), and 28 U.S.C. §§ 1391 (b), (c), and (d), because a substantial part of the events giving rise to Plaintiffs' claims occurred in this district, a substantial portion of the affected interstate trade and commerce discussed below has been carried out in this District, and one or more of the Defendants reside, are licensed to do business in, are doing business in, had agents in, or are found or transact business in this District.

13. This Court has *in personam* jurisdiction over the Defendants because each, either directly or through the ownership and/or control of its subsidiaries, inter alia: (a) transacted business in the United States, including in this District; (b) directly or indirectly sold or marketed

substantial quantities of Automotive Constant-Velocity-Joint Boot Products throughout the United States, including in this District; (c) had substantial aggregate contacts with the United States as a whole, including in this District; or (d) were engaged in an illegal price-fixing conspiracy that was directed at, and had a direct, substantial, reasonably foreseeable and intended effect of causing injury to, the business or property of persons and entities residing in, located in, or doing business throughout the United States, including in this District. The Defendants also conduct business throughout the United States, including in this jurisdiction, and they have purposefully availed themselves of the laws of the United States.

14. The Defendants engaged in conduct both inside and outside of the United States that caused direct, substantial and reasonably foreseeable and intended anticompetitive effects upon interstate commerce within the United States.

15. The activities of the Defendants and their co-conspirators were within the flow of, were intended to, and did have, a substantial effect on interstate commerce of the United States. The Defendants' products are sold in the flow of interstate commerce.

16. Automotive Constant-Velocity-Joint Boot Products manufactured abroad by the Defendants and sold for use in vehicles in the United States are goods brought into the United States for sale, and therefore constitute import commerce. To the extent any Automotive Constant-Velocity-Joint Boot Products are purchased in the United States, and such Automotive Constant-Velocity-Joint Boot Products do not constitute import commerce, the Defendants' activities with respect thereto, as more fully alleged herein during the Class Period, had, and continue to have, a direct, substantial and reasonably foreseeable effect on United States commerce. The anticompetitive conduct, and its effect on United States commerce described herein, proximately caused antitrust injury in the United States.

17. By reason of the unlawful activities hereinafter alleged, the Defendants' unlawful activities substantially affected commerce throughout the United States, causing injury to Plaintiffs and members of the Classes. The Defendants, directly and through their agents, engaged in activities affecting all states, to fix, raise, maintain and/or stabilize prices, rig bids and allocate the market and customers in the United States for Automotive Constant-Velocity-Joint Boot Products, which conspiracy unreasonably restrained trade and adversely affected the market for Automotive Constant-Velocity-Joint Boot Products.

18. The Defendants' conspiracy and wrongdoing described herein adversely affected persons in the United States who purchased Automotive Constant-Velocity-Joint Boot Products for personal use and not for resale, including Plaintiffs and the Classes.

### **Defendants**

68. Defendant Toyo Tire & Rubber Co., Ltd. is a Japanese company with its principal place of business in Osaka, Japan. Defendant Toyo Tire & Rubber Co., Ltd.– directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Automotive Constant-Velocity-Joint Boot Products that were purchased throughout the United States, including in this District, during the Class Period.

69. Defendant Toyo Automotive Parts (USA), Inc. is a Kentucky corporation with its principal place of business in Franklin, Kentucky. It is a subsidiary of and wholly owned and/or controlled by its parent, Toyo Tire & Rubber Co., Ltd. Toyo Automotive Parts (USA), Inc. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed, and/or sold Automotive Constant-Velocity-Joint Boot Products that were purchased throughout the United States, including in this District, during the Class Period. At all times during the Class Period, its activities in the United States were under the control and direction of its Japanese parent, which controlled its policies, sales and finances.

### **AGENTS AND CO-CONSPIRATORS**

70. Each Defendant acted as the principal of or agent for the other Defendant with respect to the acts, violations, and common course of conduct alleged herein.

71. Various persons, partnerships, sole proprietors, firms, corporations and individuals not named as defendants in this lawsuit, and individuals, the identities of which are presently unknown, have participated as co-conspirators with the Defendants in the offenses

alleged in this Complaint, and have performed acts and made statements in furtherance of the conspiracy or in furtherance of the anticompetitive conduct.

72. Whenever in this Complaint reference is made to any act, deed or transaction of any corporation or limited liability entity, the allegation means that the corporation or limited liability entity engaged in the act, deed or transaction by or through its officers, directors, agents, employees or representatives while they were actively engaged in the management, direction, control or transaction of the corporation's or limited liability entity's business or affairs.

### **FACTUAL ALLEGATIONS**

#### **A. The Automotive Constant-Velocity-Joint Boot Products Industry**

73. "Automotive Constant-Velocity-Joint Boot Products" are composed of rubber or plastic, and are used to cover the constant-velocity-joints of an automobile to protect the joints from contaminants. A constant velocity universal joint boot manufactured by Defendants is shown in Figure 1 below.

Figure 1.

74. Automotive Constant-Velocity-Joint Boot Products are installed by component manufacturers, otherwise known as "Tier 1 Manufacturers" onto constant-velocity-joint systems.

Constant-velocity-joint systems are installed by original equipment manufacturers (“OEMs”) in new cars as part of the automotive manufacturing process.

75. Before ordering Automotive Constant-Velocity-Joint Boot Products, Tier 1 Manufacturers typically enter into Long Term Agreements (“LTAs”) with and/or issue requests for quotation (“RFQs”) to their suppliers. In response to the RFQs, the suppliers submit price quotes, or bids, to the Tier 1 Manufacturers.

76. The Defendants and their co-conspirators supplied Automotive Constant-Velocity-Joint Boot Products to Tier 1 Manufacturers, who incorporated the Automotive Constant-Velocity-Joint Boot Products into constant-velocity-joint systems. The Tier 1 Manufacturers then supplied constant-velocity-joint systems to OEMs for installation in vehicles manufactured and sold in the United States and elsewhere. Defendants and their co-conspirators supplied Automotive Constant-Velocity-Joint Boot Products to Tier 1 Manufacturers for installation in vehicles manufactured and sold in the United States and elsewhere.

77. Plaintiffs and members of the proposed Classes purchased Automotive Constant-Velocity-Joint Boot Products indirectly from the Defendants. By way of example, an owner of a vehicle may indirectly purchase one or more Automotive Constant-Velocity-Joint Boot Product(s) from the Defendants as part of purchasing or leasing a new vehicle.

**B. The Structure and Characteristics of the Automotive Constant-Velocity-Joint Boot Products Market Render the Conspiracy More Plausible**

78. Characteristics of the Automotive Constant-Velocity-Joint Boot Products market in the United States are conducive to a price-fixing and market allocation agreement, and have made collusion particularly attractive in this market. Specifically, the Automotive Constant-Velocity-Joint Boot Products market (1) has barriers to entry and (2) has inelasticity of demand.

**1. The Automotive Constant-Velocity-Joint Boot Products Market Has High Barriers to Entry**

79. A collusive arrangement that raises product prices above competitive levels would, under basic economic principles, attract new entrants seeking to benefit from the supra-competitive pricing. Where, however, there are significant barriers to entry, new entrants are less likely. Thus, barriers to entry help to facilitate the formation and maintenance of a cartel.

80. There are substantial barriers that preclude, reduce, or make more difficult entry into the Automotive Constant-Velocity-Joint Boot Products market. A new entrant into the business would face costly and lengthy start-up costs, including multi-million dollar costs associated with manufacturing plants and equipment, energy, transportation, distribution infrastructure, and long-standing customer relationships.

81. The Defendants also own several patents related to the manufacture of Automotive Constant-Velocity-Joint Boot Products. These patents place a significant and costly burden on potential new entrants, who must avoid infringing on the patents when entering the market with a new product.

**2. There is Inelasticity of Demand for Automotive Constant-Velocity-Joint Boot Products**

82. “Elasticity” is a term used to describe the sensitivity of supply and demand to changes in one or the other. For example, demand is said to be “inelastic” if an increase in the price of a product results in only a small decline in the quantity sold of that product, if any. In other words, customers have nowhere to turn for alternative, cheaper products of similar quality, and so continue to purchase despite a price increase.

83. For a cartel to profit from raising prices above competitive levels, demand must be relatively inelastic at competitive prices. Otherwise, increased prices would result in declining sales, revenues, and profits, as customers purchased substitute products or declined to

buy altogether. Inelastic demand is a market characteristic that facilitates collusion, allowing producers to raise their prices without triggering customer substitution and lost sales revenue.

84. Demand for Automotive Constant-Velocity-Joint Boot Products is highly inelastic because there are no close substitutes for these products. In addition, customers must purchase Automotive Constant-Velocity-Joint Boot Products as an essential part of a vehicle, even if the prices are kept at a supra-competitive level.

**C. Government Investigations**

85. A globally coordinated antitrust investigation is taking place in the United States, Europe, Canada and Japan, aimed at suppliers of automotive parts in general. A Japanese Fair Trade Commission (“JFTC”) official told a leading legal publication that the international automotive parts investigation would continue to widen because the automotive industry as a whole comprises many sub-industries. He characterized the investigation being conducted by international antitrust authorities as “large and broad,” and he declined to deny that this “would be history’s largest case.”

86. The probe originated in Europe as the result of several European OEMs coming together to bring a complaint to the European Commission (“EC”). The EC and the FBI have executed surprise raids at the European and U.S. offices of several auto parts manufacturers as part of an investigation into anticompetitive conduct related to the manufacturing and sale of automotive parts.

87. On February 8, 2010, the EC executed surprise raids at the European offices of certain automotive parts makers. The DOJ has confirmed that its auto parts investigation is the largest criminal investigation that the Antitrust Division has ever pursued, both in terms of its scope and the potential volume of commerce affected by the illegal conduct. The DOJ has levied more than \$3.4 billion in criminal fines against various automotive parts manufacturers.

**Defendant Toyo Tire & Rubber Co., Ltd. Pleads Guilty to Price-Fixing anti-vibration rubber products and Automotive Constant-Velocity-Joint Boot Products**

88. On November 26, 2013, the DOJ announced that Defendant Toyo Tire & Rubber Co., Ltd. agreed to pay a \$120 million criminal fine and plead guilty to a two-count Information charging it with: (i) engaging in a combination and conspiracy to suppress and eliminate competition by agreeing to allocate sales of, rig bids for, and to fix, raise, and maintain the prices of automotive anti-vibration rubber products sold to automobile and component manufacturers in the United States and elsewhere; and (ii) engaging in a combination and conspiracy to suppress and eliminate competition by agreeing to allocate sales of, and to fix, raise, and maintain the price of, Automotive Constant-Velocity-Joint Boot Products sold to GKN in the United States and elsewhere from at least as early as January 2006 and continuing until as late as September 2010 in violation of the Sherman Act, 15 U.S.C. § 1.

89. According to the Information filed, Defendant Toyo and its co-conspirators carried out the Automotive Constant-Velocity-Joint Boot Products conspiracy by:

(a) participating in meetings and engaging in discussions in Japan concerning prices for Automotive Constant-Velocity-Joint Boot Products sold to GKN in the United States and elsewhere;

(b) agreeing during those meetings and discussions to allocate among the companies certain sales of certain Automotive Constant-Velocity-Joint Boot Products sold to GKN in the United States and elsewhere;

(c) agreeing, during those meetings, conversations, and communications, on prices to be submitted to GKN in the United States and elsewhere;

(d) discussing and exchanging prices for certain Automotive Constant-Velocity-Joint Boot Products sold to GKN in the United States and elsewhere;

(e) submitting bids and price quotations to GKN in the United States and elsewhere in accordance with the agreements;

(f) selling Automotive Constant-Velocity-Joint Boot Products to GKN in the United States and elsewhere at collusive and noncompetitive prices; and

(g) accepting payment for Automotive Constant-Velocity Joint Boot Products sold to GKN in the United States and elsewhere at collusive and noncompetitive prices.

**D. Likely Existence of a Cooperating Defendant**

90. The Antitrust Criminal Penalty Enhancement and Reform Act (“ACPERA”) provides leniency benefits for a participant in a price-fixing conspiracy that voluntarily discloses its conduct to the Department of Justice. In most recent cases in which guilty pleas for price-fixing conduct have been obtained, there has been a cooperating party that has been accepted into the DOJ’s ACPERA program as an “amnesty applicant.” One of the leniency benefits for a conspirator that is accepted into the ACPERA program is that it is not charged with a criminal offense and is not required to plead guilty to criminal charges.

91. In light of the guilty plea in this case, in related automotive parts antitrust cases and the DOJ’s ongoing investigation into the industry, it is reasonable for this Court to infer that there is an ACPERA “amnesty applicant” in this case.

**E. Additional Criminal Pleadings in the Automotive Parts Industry**

92. On September 29, 2011, the DOJ announced that Furukawa Electric Co. Ltd. had agreed to plead guilty and to pay a \$200 million criminal fine for its role in a criminal price-fixing and bid rigging conspiracy involving the sale of automotive wire harnesses and related products to automobile manufacturers.

93. In the press release announcing the fine against Furukawa Electric Co. Ltd., Sharis A. Pozen, then the Acting Assistant Attorney General in charge of the DOJ’s Antitrust

division, said that “[a]s a result of this international price-fixing and bid-rigging conspiracy, automobile manufacturers paid noncompetitive and higher prices for parts in cars sold to U.S. consumers.” Ms. Pozen also stated that “[t]his cartel harmed an important industry in our nation’s economy, and the Antitrust Division with the Federal Bureau of Investigation will continue to work together to ensure that these kinds of conspiracies are stopped.” The press release also quoted FBI’s Special Agent in Charge Andrew G. Arena, who said that “[w]hen companies partner to control and price fix bids or contracts, it undermines the foundation of the United States’ economic system,” and that “[t]he FBI is committed to aggressively pursuing any company involved in antitrust crimes.”

94. On January 30, 2012, the DOJ announced that Yazaki Corporation had agreed to plead guilty and to pay a \$470 million criminal fine and DENSO Corporation had agreed to plead guilty and to pay a \$78 million criminal fine for their respective involvement in multiple price-fixing and bid-rigging conspiracies in the sale of automotive parts to automobile manufacturers in the United States. According to the three-count criminal Information filed against Yazaki, it engaged in three separate conspiracies: (i) to rig bids for and to fix, stabilize, and maintain the prices of, automotive wire harnesses and related products sold to certain automobile manufactures in the United States and elsewhere; (ii) to rig bids for and to fix, stabilize, and maintain the prices of, instrument panel clusters sold to certain automobile manufactures in the United States and elsewhere; and (iii) to fix, stabilize, and maintain the prices of fuel senders sold to an automobile manufacture in the United States and elsewhere. According to the two-count felony charge against Defendant DENSO Corporation, it engaged in conspiracies to rig bids for, and to fix, stabilize, and maintain the prices of, electronic control

units (“ECUs”) and heater control panels (“HCPs”) sold to an automobile manufacturer in the United States and elsewhere.

95. In the press release announcing the fines against Yazaki Corporation, its executives, and DENSO Corporation, Ms. Pozen vowed to continue the investigation into “pernicious cartel conduct that results in higher prices to American consumers . . . .” In the same press release, Special Agent in Charge Andrew G. Arena said that “[t]his criminal activity has as significant impact on the automotive manufacturers in the United States, Canada, Japan and Europe and has been occurring for at least a decade. The conduct has also affected commerce on a global scale in almost every market where automobiles are manufactured and/or sold[.]”

96. Ms. Pozen said there is no doubt **consumers** were hurt financially by the automotive wire harness price-fixing conspiracy. She stated: “By rigging bids on wiring harnesses . . . the three companies inflated what some of their auto manufacturer clients paid, and indirectly, what consumers paid for some cars.”

97. On April 3, 2012, the DOJ announced that G.S. Electech, Inc. had agreed to plead guilty and to pay a \$2.75 million criminal fine for its role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of, speed sensor wire assemblies used on antilock brake systems sold to an automobile manufacturer in the United States and elsewhere.

98. On April 23, 2012, the DOJ announced that Fujikura Ltd. had agreed to plead guilty and to pay a \$20 million criminal fine for its role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of, automotive wire harnesses and related products sold to an automobile manufacturer in the United States and elsewhere.

99. On June 6, 2012, the DOJ announced that Autoliv Inc. had agreed to plead guilty to a two-count criminal Information and to pay a \$14.5 million criminal fine for its involvement

in a combination and conspiracy to suppress competition in the automotive parts industry by (i) agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, certain seatbelts sold to a Japanese automobile manufacturer; and (ii) agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, certain seatbelts, airbags, and/or steering wheels sold to a Japanese automobile manufacturer.

100. On July 30, 2012, the DOJ announced that TRW Deutschland Holding GmbH had agreed to plead guilty and to pay a \$5.1 million criminal fine for its involvement in a combination and conspiracy, through its employees, including high level employees of its wholly-owned subsidiaries, to suppress and eliminate competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of seatbelts, airbags and steering wheels sold to two German automobile manufacturers in the United States and elsewhere.

101. On August 28, 2012, the DOJ announced that Nippon Seiki Co. Ltd. had agreed to plead guilty and to pay a \$1 million criminal fine for its involvement in a combination and conspiracy to suppress competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, instrument panel clusters sold to an automobile manufacturer in in the United States and elsewhere.

Tokai Rika also agreed to plead guilty to a charge of obstruction of justice related to the investigation of the antitrust violation.

103. On February 15, 2013, Scott Hammond, the deputy Assistant Attorney General in the Antitrust Division, discussed the DOJ's ongoing automotive parts investigation in a Thomas Reuters article. He said "[t]he investigation is broader than what we've announced so far . . . . [The investigation] is still very much ongoing, but it already appears to be the biggest criminal antitrust investigation that we've ever encountered. *I say the biggest with respect to the impact on U.S. businesses and consumers, and the number of companies and executives that are subject to the investigation.*" (emphasis added).

104. On July 16, 2013, the DOJ announced that Diamond Electric Mfg. Co. 105. In the press release announcing the fine against Diamond Electric Mfg. Co. Ltd., Robert D. Foley III, Agent in Charge, FBI Detroit Division said "[t]hose who engage in price fixing, bid rigging and other fraudulent schemes harm the automotive industry by driving up costs for vehicle makers and buyers."

106. On July 18, 2013, Panasonic Corporation agreed to plead guilty and to pay a \$45.8 million criminal fine for its role in a conspiracy to fix prices of various automotive parts including high intensity discharge ("HID") ballasts, switches and steering angle sensors installed in automobiles sold in the United States and elsewhere.

107. On September 26, 2013, nine additional Japanese automotive suppliers agreed to plead guilty to conspiracy charges and pay more than \$740 million in criminal fines for their roles in rigging the prices of more than 30 different products:

a) Hitachi Automotive Systems Ltd. agreed to plead guilty and to pay a \$195 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of automotive parts including starter motors, alternators, air flow meters, valve timing control devices, fuel injection systems, electronic throttle bodies, ignition coils, inverters and motor generators sold to automobile manufacturers in the United States and elsewhere;

b) Mitsuba Corporation agreed to plead guilty and to pay a \$135 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of certain automotive parts sold to automobile manufacturers in the United States and elsewhere. Ltd. agreed to plead guilty and to pay an \$11 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, raise and maintain the prices of automotive anti-vibration rubber products sold in the United States and elsewhere to automobile manufacturers.

108. On the same day, September 26, 2013, United States Attorney General Eric Holder in the Antitrust Division presented the DOJ’s most recent findings in the ongoing automotive parts investigation. He stated “[t]hese international price-fixing conspiracies affected more than \$5 billion in automobile parts sold to U.S. car manufacturers. In total, more than 25 million cars purchased by American consumers were affected by the illegal conduct.” Attorney

General Holder also described how the conspiracies worked: “[c]ompany executives met face to face in the United States and Japan – and talked on the phone – to reach collusive agreements to rig bids, fix prices and allocate the supply of auto parts sold to U.S. car companies. In order to keep their illegal conduct secret, they used code names and met in remote locations. Then they followed up with each other regularly to make sure the collusive agreements were being adhered to.” Attorney General Holder explained that the automotive parts conspiracies “targeted U.S. manufacturing, U.S. businesses and U.S. consumers. As a result of these conspiracies, Americans paid more for their cars.”

109. The diagram below, which was prepared by the DOJ, illustrates the September 26, 2013 guilty pleas and the corresponding automotive parts to which the various manufacturers have admitted price-fixing.

prices of automotive anti-vibration rubber parts installed in automobiles sold in the United States and elsewhere.

116. On April 23, 2014, the DOJ announced that Showa Corporation agreed to plead guilty and to pay a \$19.9 million criminal fine for its role in a conspiracy to fix prices and rig bids for pinion-assist type electric powered steering assemblies installed in cars sold in the United States and elsewhere.

117. On August 19, 2014, the DOJ announced that NGK Sparkplug Co. Ltd. agreed to plead guilty and to pay a \$52.1 million criminal fine for its role in a conspiracy to fix prices and rig bids for spark plugs, standard oxygen sensors, and air fuel ratio sensors installed in cars sold to automobile manufacturers in the United States and elsewhere.

118. On September 29, 2014, the DOJ announced that Toyoda Gosei Co. Ltd. agreed to plead guilty and to pay a \$26 million criminal fine for its involvement in a combination and conspiracy to suppress competition in the automotive parts industry by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of certain automotive hoses sold to Toyota in the United States and by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of, automotive airbags and steering wheels sold to Subaru and Toyota in the United States and elsewhere.

119. On October 31, 2014, the DOJ announced that Hitachi Metals Ltd. agreed to plead guilty and to pay a \$1.25 million criminal fine for its role in a conspiracy to allocate the sales of, to rig bids for, and to fix, raise, and maintain the prices of automotive brake hose sold to Toyota in the United States and elsewhere.

120. On November 13, 2014, the DOJ announced that Aisin Seiki Co. Ltd. agreed to plead guilty and to pay a \$35.8 million criminal fine for its role in a conspiracy to allocate

customers of variable valve timing devices installed in cars sold to automobile manufacturers in the United States and elsewhere.

121. On November 24, 2014, the DOJ announced that Continental Automotive Electronics LLC and Continental Automotive Korea Ltd. agreed to plead guilty and to pay a criminal fine of \$4 million for their roles in a conspiracy to rig bids of instrument panel clusters installed in vehicles manufactured and sold in the United States

122. To date, thirty-two companies and forty-eight executives have been charged in the DOJ's ongoing investigation into price-fixing and bid-rigging in the automotive parts industry. Each of the thirty-two companies has either pleaded guilty or agreed to plead guilty and altogether, they have agreed to pay approximately \$2.4 billion in criminal fines.

123. "This criminal activity has a significant impact on the automotive manufacturers in the United States, Canada, Japan and Europe and has been occurring at least a decade. The conduct had also affected commerce on a global scale in almost every market where automobiles are manufactured and/or sold," said FBI's Special Agent in Charge Andrew G. Arena. "When companies partner to control and price fix bids or contracts, it undermines the foundation of the United States' economic system," Arena also said. "The FBI is committed to aggressively pursuing any company involved in antitrust crimes."

### **CLASS ACTION ALLEGATIONS**

124. Plaintiffs bring this action on behalf of themselves and as a class action under Rule 23(a) and (b)(2) of the Federal Rules of Civil Procedure, seeking equitable and injunctive relief on behalf of the following class (the "Nationwide Class"):

All persons and entities who, during the Class Period, purchased or leased a new vehicle in the United States not for resale which included one or more Automotive Constant-Velocity-Joint Boot Product(s) as a component part which were manufactured or sold

by a Defendant, any current or former subsidiary of a Defendant or any co-conspirators of the Defendants.

125. Plaintiffs also bring this action on behalf of themselves and as a class action under Rule 23(a) and (b)(3) of the Federal Rules of Civil Procedure seeking damages pursuant to state antitrust, unfair competition, consumer protection, and unjust enrichment laws on behalf of the following class (the “Damages Class”):

All persons and entities who, during the Class Period, purchased or leased a new vehicle in the Indirect Purchaser States<sup>1</sup> not for resale which included one or more Automotive Constant-Velocity-Joint Boot Product(s) as a component part which were manufactured or sold by a Defendant, any current or former subsidiary of a Defendant or any co-conspirator of the Defendants.

126. The Nationwide Class and the Damages Class are referred to herein as the “Classes.” Excluded from the Classes are Defendants, their parent companies, subsidiaries and affiliates, any co-conspirators, federal governmental entities and instrumentalities of the federal government, states and their subdivisions, agencies and instrumentalities, and persons who purchased Automotive Constant-Velocity-Joint Boot Products directly or for resale.

127. While Plaintiffs do not know the exact number of the members of the Classes, Plaintiffs believe there are (at least) thousands of members in each Class.

128. Common questions of law and fact exist as to all members of the Classes. This is particularly true given the nature of Defendants’ conspiracy, which was generally applicable to all the members of both Classes, thereby making appropriate relief with respect to the Classes as a whole. Such questions of law and fact common to the Classes include, but are not limited to:

---

<sup>1</sup> The Indirect Purchaser States are the states listed in the Second and Third Claims for Relief.

(a) Whether the Defendants and their co-conspirators engaged in a combination and conspiracy among themselves to fix, raise, maintain or stabilize the prices of Automotive Constant-Velocity-Joint Boot Products sold in the United States;

(b) The identity of the participants of the alleged conspiracy;

(c) The duration of the alleged conspiracy and the acts carried out by Defendants and their co-conspirators in furtherance of the conspiracy;

(d) Whether the alleged conspiracy violated the Sherman Act, as alleged in the First Claim for Relief;

(e) Whether the alleged conspiracy violated state antitrust and unfair competition law, as alleged in the Second and Third Claims for Relief;

(f) Whether the Defendants unjustly enriched themselves to the detriment of the Plaintiffs and the members of the Classes, thereby entitling Plaintiffs and the members of the Classes to disgorgement of all benefits derived by Defendants, as alleged in the Fourth Claim for Relief;

(g) Whether the conduct of the Defendants and their co-conspirators, as alleged in this Complaint, caused injury to the business or property of Plaintiffs and the members of the Classes;

(h) The effect of the alleged conspiracy on the prices of Automotive Constant-Velocity-Joint Boot Product sold in the United States during the Class Period;

(i) Whether Plaintiffs and members of the Classes had any reason to know or suspect the conspiracy, or any means to discovery the conspiracy;

(j) Whether the Defendants and their co-conspirators fraudulently concealed the conspiracy's existence from the Plaintiffs and the members of the Classes;

(k) The appropriate injunctive and related equitable relief for the Nationwide Class; and

(l) The appropriate class-wide measure of damages for the Damages Class.

129. Plaintiffs' claims are typical of the claims of the members of the Classes, and Plaintiffs will fairly and adequately protect the interests of the Classes. Plaintiffs and all members of the Classes are similarly affected by Defendants' wrongful conduct in that they paid artificially inflated prices for Automotive Constant-Velocity-Joint Boot Products purchased indirectly from the Defendants and/or their co-conspirators.

130. Plaintiffs' claims arise out of the same common course of conduct giving rise to the claims of the other members of the Classes. Plaintiffs' interests are coincident with, and not antagonistic to, those of the other members of the Classes. Plaintiffs are represented by counsel who are competent and experienced in the prosecution of antitrust and class action litigation.

131. The questions of law and fact common to the members of the Classes predominate over any questions affecting only individual members, including legal and factual issues relating to liability and damages.

132. Class action treatment is a superior method for the fair and efficient adjudication of the controversy, in that, among other things, such treatment will permit a large number of similarly situated persons to prosecute their common claims in a single forum simultaneously, efficiently and without the unnecessary duplication of evidence, effort and expense that numerous individual actions would engender. The benefits of proceeding through the class mechanism, including providing injured persons or entities with a method for obtaining redress for claims that it might not be practicable to pursue individually, substantially outweigh any difficulties that may arise in management of this class action.

133. The prosecution of separate actions by individual members of the Classes would create a risk of inconsistent or varying adjudications, establishing incompatible standards of conduct for Defendants.

**PLAINTIFFS AND THE CLASSES SUFFERED ANTITRUST INJURY**

134. The Defendants' price-fixing conspiracy had the following effects, among others:

(a) Price competition has been restrained or eliminated with respect to Automotive Constant-Velocity-Joint Boot Products;

(b) The prices of Automotive Constant-Velocity-Joint Boot Products have been fixed, raised, maintained, or stabilized at artificially inflated levels;

(c) Indirect purchasers of Automotive Constant-Velocity-Joint Boot Products have been deprived of free and open competition; and

(d) Indirect purchasers of Automotive Constant-Velocity-Joint Boot Products paid artificially inflated prices.

135. During the Class Period, Plaintiffs and the members of the Classes paid supra-competitive prices for Automotive Constant-Velocity-Joint Boot Products. These inflated prices have been passed on to them by Tier 1 Manufacturers, OEMs and dealers.

136. The markets for Automotive Constant-Velocity-Joint Boot Products and vehicles are inextricably linked and intertwined because the market for Automotive Constant-Velocity-Joint Boot Products exists to serve the vehicle market. Without the vehicles, the Automotive Constant-Velocity-Joint Boot Products have little to no value because they have no independent utility. Indeed, the demand for vehicles creates the demand for Automotive Constant-Velocity-Joint Boot Products. As stated in the 2010 Annual Report of Lear Corporation, an automobile parts supplier: "Our sales are driven by the number of vehicles produced by the automotive

manufacturers, which is ultimately dependent on consumer fleet demand for automotive vehicles.”

137. Automotive Constant-Velocity-Joint Boot Products are identifiable, discrete physical products that remain essentially unchanged when incorporated into a vehicle. As a result, Automotive Constant-Velocity-Joint Boot Products follow a traceable physical chain of distribution from the Defendants to Plaintiffs and the members of the Classes, and any costs attributable to Automotive Constant-Velocity-Joint Boot Products can be traced through the chain of distribution to Plaintiffs and the members of the Classes.

138. Just as Automotive Constant-Velocity-Joint Boot Products can be physically traced through the supply chain, so can their price be traced to show that changes in the prices paid by direct purchasers of Automotive Constant-Velocity-Joint Boot Products affect prices paid by indirect purchasers of new motor vehicles containing Automotive Constant-Velocity-Joint Boot Products.

139. While even a monopolist would increase its prices when the cost of its inputs increased, the economic necessity of passing through cost changes increases with the degree of competition a firm faces. The OEM and dealer markets for new motor vehicles are subject to vigorous price competition. The OEMs and dealers have thin net margins, and are therefore at the mercy of their component costs, such that increases in the price of components such as Automotive Constant-Velocity-Joint Boot Products lead to corresponding increases in prices for new motor vehicles at the OEM and dealer levels. When downstream distribution markets are highly competitive, as they are in the case of new motor vehicles containing Automotive Constant-Velocity-Joint Boot Products as components, overcharges are passed through to ultimate consumers, such as the indirect-purchaser Plaintiffs and members of the Classes.

140. Hence, the inflated prices of Automotive Constant-Velocity-Joint Boot Products in new motor vehicles resulting from Defendants' bid rigging and price-fixing conspiracy have been passed on to Plaintiffs and the other members of the Classes by OEMs and dealers.

141. The economic and legal literature has recognized that unlawful overcharges in a component normally result in higher prices for products containing that price-fixed component. Two antitrust scholars – Professors Robert G. Harris (Professor Emeritus and former Chair of the Business and Public Policy Group at the Haas School of Business at the University of California at Berkeley) and the late Lawrence A. Sullivan (Professor of Law Emeritus at Southwestern Law School and author of the Handbook of the Law of Antitrust) – have observed that “in a multiple-level chain of distribution, passing on monopoly overcharges is not the exception: it is the rule.”<sup>2</sup>

142. As Professor Jeffrey K. MacKie-Mason (Arthur W. Burks Professor for Information and Computer Science and Professor of Economics and Public Policy at the University of Michigan), an expert who presented evidence in a number of the indirect purchaser cases involving Microsoft Corporation, said (in a passage quoted in the judicial decision in that case granting class certification):

As is well known in economic theory and practice, at least some of the overcharge will be passed on by distributors to end consumers. When the distribution markets are highly competitive, as they are here, all or nearly the entire overcharge will be passed on through to ultimate consumers...Both of Microsoft's experts also agree upon the economic phenomenon of cost pass through, and how it works in competitive markets. This general phenomenon of cost pass through is well established in antitrust laws and economics as well.<sup>3</sup>

<sup>3</sup> Order re: Class Certification at 13-14, *Coordination Proceedings Special Title (Rule 1550(b)) Microsoft I-V Cases*, No. J.C.C.P. No. 4106, (Cal. Sup. Ct. Aug. 29, 2000).

143. The purpose of the conspiratorial conduct of the Defendants and their co-conspirators was to raise, fix, rig or stabilize the price of Automotive Constant-Velocity-Joint Boot Products and, as a direct and foreseeable result, the price of new motor vehicles containing Automotive Constant-Velocity-Joint Boot Products. Economists have developed techniques to isolate and understand the relationship between one “explanatory” variable and a “dependent” variable in those cases when changes in the dependent variable are explained by changes in a multitude of variables, even when all such variables may be changing simultaneously. That analysis - called regression analysis - is commonly used in the real world and in litigation to determine the impact of a price increase on one cost in a product (or service) that is an assemblage of costs. Thus, it is possible to isolate and identify only the impact of an increase in the price of Automotive Constant-Velocity-Joint Boot Products on prices for new motor vehicles even though such products contain a number of other components whose prices may be changing over time. A regression model can explain how variation in the price of Automotive Constant-Velocity-Joint Boot Products affects changes in the price of new motor vehicles. In such models, the price of Automotive Constant-Velocity-Joint Boot Products would be treated as an independent or explanatory variable. The model can isolate how changes in the price of Automotive Constant-Velocity-Joint Boot Products impact the price of new motor vehicles containing Automotive Constant-Velocity-Joint Boot Products while controlling for the impact of other price-determining factors.

144. The precise amount of the overcharge impacting the prices of new motor vehicles containing Automotive Constant-Velocity-Joint Boot Products can be measured and quantified. Commonly used and well-accepted economic models can be used to measure both the extent and

the amount of the supra-competitive charge passed-through the chain of distribution. Thus, the economic harm to Plaintiffs and the class members can be quantified.

145. In addition to the regression analysis discussed above demonstrating impact on consumers, the Department of Justice's Antitrust Division, which has been investigating this cartel for some time, **has concluded that there is "no doubt" that consumers were hurt financially.** Sharis A. Pozen, Acting Assistant Attorney General in charge of the Department of Justice's Antitrust Division said: "By rigging bids . . . the three companies inflated what some of their auto manufacturing clients paid, and indirectly, what consumers paid for some cars. Pozen said." "As a result of this international price-fixing and bid-rigging conspiracy, automobile manufacturers paid noncompetitive and higher prices for parts in cars sold to U.S. consumers," Pozen said. "This cartel harmed an important industry in our nation's economy, and the Antitrust Division with the Federal Bureau of Investigation will continue to work together to ensure that these kinds of conspiracies are stopped." Pozen went on to say that there was no doubt that consumers were hurt financially by the cartel's activity. In a separate press statement, Pozen vowed to continue the investigation into "pernicious cartel conduct that results in higher prices to American consumers . . . ."

146. On February 15, 2013, Scott Hammond, the deputy assistant attorney general in the DOJ's Antitrust Division, discussed DOJ's ongoing automotive parts investigation in a Thomson Reuters article. He said "[t]he investigation is broader than what we've announced so far . . . . [The investigation] is still very much ongoing, but it already appears to be the biggest criminal antitrust investigation that we've ever encountered. *I say biggest with respect to the **impact** on U.S. businesses and **consumers**, and the number of companies and executives that are subject to the investigation.*" (emphasis added).

147. On September 26, 2013, United States Attorney General Eric Holder in the Antitrust Division presented the DOJ's then most recent findings in the ongoing automotive parts investigation. He stated "[t]hese international price-fixing conspiracies affected more than \$5 billion in automobile parts sold to U.S. car manufacturers. In total, more than 24 million cars purchased by American consumers were affected by the illegal conduct." Holder also described how the conspiracies worked: "[c]ompany executives met face to face in the United States and Japan – and talked on the phone – to reach collusive agreements to rig bids, fix prices and allocate the supply of auto parts sold to U.S. car companies. In order to keep their illegal conduct secret, they used code names and met in remote locations. Then they followed up with each other regularly to make sure the collusive agreements were being adhered to." Attorney General Holder explained that the automotive parts conspiracies "targeted U.S. manufacturing, U.S. businesses and U.S. consumers. As a result of these conspiracies, Americans paid more for their cars."

148. On May 25, 2014, news sources reported that Brent Snyder, a deputy assistant attorney general in the Antitrust Division, said with respect to the automotive parts conspiracies, "[i]t's a very, very safe assumption that U.S. consumers paid more, and sometimes significantly more, for their automobiles as a result of this conspiracy."

149. By reason of the alleged violations of the antitrust laws, Plaintiffs and the members of the Classes have sustained injury to their businesses or property, having paid higher prices for Automotive Constant-Velocity-Joint Boot Products than they would have paid in the absence of the Defendants' illegal contract, combination, or conspiracy, and, as a result, have suffered damages in an amount presently undetermined. This is an antitrust injury of the type that the antitrust laws were meant to punish and prevent.

**PLAINTIFFS' CLAIMS ARE NOT BARRED BY THE STATUTE OF LIMITATIONS**

**A. The Statute of Limitations Did Not Begin to Run Because Plaintiffs Did Not And Could Not Discover Their Claims**

150. Plaintiffs repeat and re-allege the allegations set forth above.

151. Plaintiffs and the members of the Classes had no knowledge of the Automotive Constant-Velocity-Joint Boot Products combination or conspiracy alleged herein, or of facts sufficient to place them on inquiry notice of the claims arising from the alleged conspiracy to fix prices of Automotive Constant-Velocity-Joint Boot Products set forth herein, until (at the earliest) November 26, 2013, the date that the DOJ publicly announced Defendant Toyo Tire & Rubber Co., Ltd.'s anticipated guilty plea.

152. Plaintiffs and the members of the Classes are purchasers who purchased or leased automobiles containing Automotive Constant-Velocity-Joint Boot Products. They had no direct contact or interaction with the Defendants in this case and had no means from which they could have discovered the Automotive Constant-Velocity-Joint Boot Products combination and conspiracy described in this Complaint before November 26, 2013, the date that the DOJ publicly announced Defendant Toyo Tire & Rubber Co., Ltd.'s anticipated guilty plea.

153. No information in the public domain was available to the Plaintiffs and the members of the Classes prior to November 26, 2013, the date that the DOJ publicly announced Defendant Toyo Tire & Rubber Co., Ltd.'s anticipated guilty plea that revealed sufficient information to suggest that the Defendants were involved in a criminal conspiracy to price-fix and rig bids for Automotive Constant-Velocity-Joint Boot Products. Plaintiffs and the members of the Classes had no means of obtaining any facts or information concerning any aspect of the Defendants' dealings with Tier 1 Manufacturers, OEMs or other direct purchasers, much less the

fact that they and their co-conspirators had engaged in the combination and conspiracy alleged herein.

154. For these reasons, the statute of limitations as to Plaintiffs' and the Classes' claims did not begin to run, and has been tolled with respect to the claims that Plaintiffs and the members of the Classes have alleged in this Complaint.

**B. Fraudulent Concealment Tolled the Statute of Limitations**

155. In the alternative, application of the doctrine of fraudulent concealment tolled the statute of limitations on the claims asserted herein by Plaintiffs and the Classes. Plaintiffs and the members of the Classes did not discover, and could not discover through the exercise of reasonable diligence, the existence of the Automotive Constant-Velocity-Joint Boot Products conspiracy alleged herein until November 26, 2013, the date that the DOJ publicly announced Defendant Toyo Tire & Rubber Co., Ltd.'s anticipated guilty plea.

156. Before that time, Plaintiffs and the members of the Classes were unaware of the Defendants' unlawful conduct, and did not know before then that they were paying supra-competitive prices for Automotive Constant-Velocity-Joint Boot Products throughout the United States during the Class Period. No information, actual or constructive, was ever made available to Plaintiffs and the members of the Classes that even hinted to Plaintiffs that they were being injured by the Defendants' unlawful conduct.

157. The affirmative acts of the Defendants alleged herein, including acts in furtherance of the conspiracy, were wrongfully concealed and carried out in a manner that precluded detection.

158. Specifically, as Attorney General Holder explained in connection with the DOJ's globally coordinated investigation into price-fixing in the Automotive parts industry, "[i]n order to keep their illegal conduct secret, [Defendants] used code names and met in remote locations."

159. By its very nature, the Defendants' and their co-conspirators' anticompetitive conspiracy was inherently self-concealing. Automotive Constant-Velocity-Joint Boot Products are not exempt from antitrust regulation, and thus, before November 26, 2013, Plaintiffs reasonably considered the Automotive Constant-Velocity-Joint Boot Products industry to be a competitive industry. Accordingly, a reasonable person under the circumstances would not have been alerted to begin to investigate the legitimacy of the Defendants' Automotive Constant-Velocity-Joint Boot Product prices before November 26, 2013, the date that the DOJ publicly announced Defendant Toyo Tire & Rubber Co., Ltd.'s anticipated guilty plea.

160. Plaintiffs and the members of the Classes could not have discovered the alleged contract, conspiracy or combination at an earlier date by the exercise of reasonable diligence because of the deceptive practices and techniques of secrecy employed by the Defendants and their co-conspirators to avoid detection of, and fraudulently conceal, their contract, combination, or conspiracy.

161. Because the alleged Automotive Constant-Velocity-Joint Boot Product conspiracy was both self-concealing and affirmatively concealed by the Defendants and their co-conspirators, Plaintiffs and members of the Classes had no knowledge of the alleged conspiracy, or of any facts or information that would have caused a reasonably diligent person to investigate whether a conspiracy existed, until November 26, 2013, the date that the DOJ publicly announced Defendant Toyo Tire & Rubber Co., Ltd.'s anticipated guilty plea..

162. For these reasons, the statute of limitations applicable to Plaintiffs' and the Classes' claims with respect to the alleged Automotive Constant-Velocity-Joint Boot Product conspiracy was tolled and did not begin to run until November 26, 2013.

**FIRST CLAIM FOR RELIEF**  
**Violation of Section 1 of the Sherman Act**  
**(on behalf of Plaintiffs and the Nationwide Class)**

163. Plaintiffs incorporate by reference the allegations in the preceding paragraphs.
